This week we will be exploring math tasks in which the student will be asked to “add to” a situation to find a solution. Here are some examples of “add to” situations:

Two bunnies sat on the grass. Three more bunnies hopped there. How many bunnies are on the grass now? $2 + 3 = ?$

Two bunnies were sitting on the grass. Some more bunnies hopped there. Then there were five bunnies. How many bunnies hopped over to the first two? $2 + ? = 5$

Reminders

Be sure you are reading 20 to 30 minutes every single day with your child.
